

Business SMS *beta*

Business SMS enhances your business phone system by enabling users to send and receive texts with customers, colleagues, and departments using their one RingCentral business number.

By using Business SMS, you can send text messages of up to 160 characters from your local (non toll-free) RingCentral number to RingCentral extensions or other 10-digit local numbers. Conversations are threaded within the RingCentral app with the 100 most recent messages synched.

Receive push and email notifications of incoming messages and create a spam blacklist to block specific numbers.

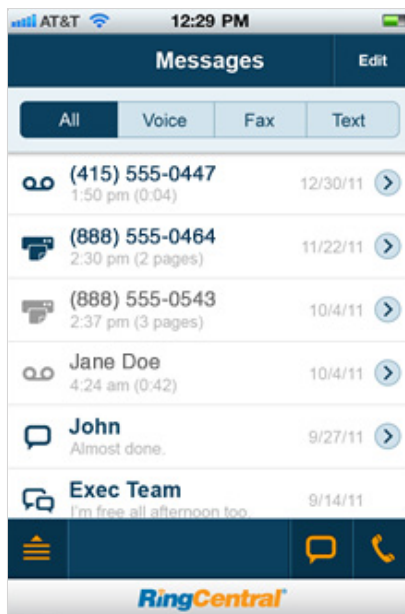

Features & Benefits:

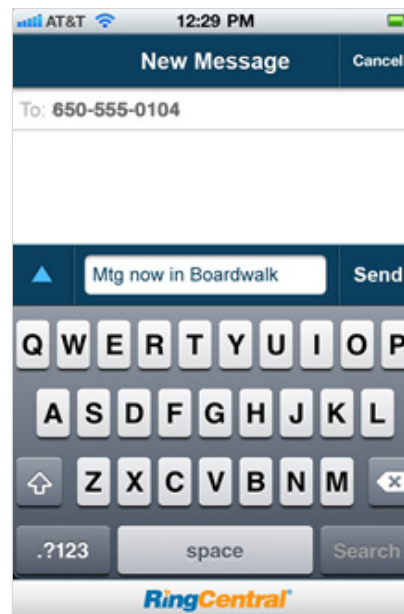

- One business number for voice, fax and text messages
- Send and receive 160-character messages to and from RingCentral extensions or 10-digit local numbers
- Message with colleagues, clients, and departments
- Recipients can reply via Business SMS on their RingCentral app
- The RingCentral app for iPhone is available for version 5.0 or higher
- The RingCentral app for Android is available for versions 2.3 to 3.x.x
- Text seamlessly across devices, including smartphones, tablets and PCs
- Block unwanted texts with number blocking and spam blacklists
- Receive email notifications of incoming text messages on your PC

Overall, Business SMS is a powerful new feature to increase communication efficiency by allowing text messaging with your one business number.

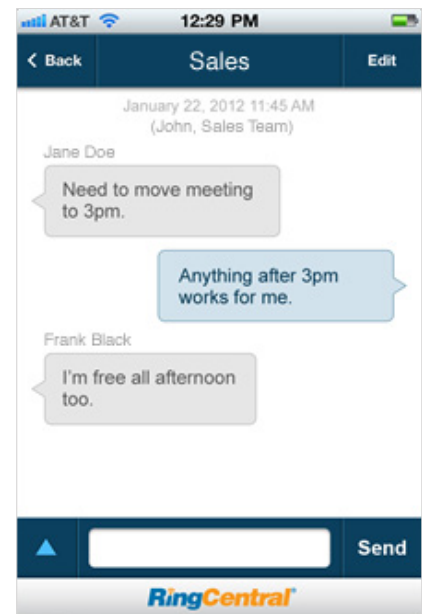

How It Works

Receive text messages along with voicemails and faxes in your RingCentral app.

After selecting a contact, you can compose and send a new text message.

Send and receive text messages of up to 160 characters. Reply using the new RingCentral mobile app for Android or iOS.
