

# SOLINK +

*Some things just belong together.*

## Solink helps businesses find and solve problems every day.

With Solink, you have total visibility into your business. Solink creates a dashboard of searchable moments from your transactions and your camera footage so you can quickly identify trends and issues that affect your profitability.

With our mobile app + platform, you've got full visibility into every shift, every site, and every sale.

## Solink + Brew City PC helps you manage:

- employee theft
  - customer experience issues
  - slips and falls
  - shoplifting and dine-and-dashes
  - motion and unusual activity
  - empty shelves and cleanliness
  - fast and slow service
  - inventory shrink and loss
- ... easily tracked via real-time alerts + daily digests.**

## Testimonial

"I can't be there to watch over every little thing every day. To have that peace of mind to be able to pull detailed information up at any time to get the full picture is great."

*-Eric Bonner, VP of Operations, PrimoHoagies*

Solink gives you visibility into every shift, site, and sale for all your locations.

Solink connects your **video footage + POS transactions** to create **alerts and reports** into your business' activity. Get more from your conventional systems by turning them into tools for loss prevention, security, and operations.

### Save and send clips instantly

Snip a clip for later review. Easily share a clip with staff or authorities.

### Pinpoint motion anywhere

With just a fingertip, select any spot in a room and review all motion on a timeline.

### Search like a search engine

Input any keyword: menu items, products, staff names, transaction types. Solink finds you just the related moments you need.

### Peace of mind with alerts

Receive instant alerts on any device for motion, voids, and anything else you need to watch.

### Get straight to the point

Find the exact transaction or action that matters with specific searches—Solink updates the results in real-time.

### Automatically keep informed

Daily digests send regular updates to your phone plus your team on sales, motion events, and custom queries.

### Get a clear picture with historical data

Histogram shows revenue and stats to highlight trends and issues.

### Track speed, sales, and revenue

Use Discover Dashboard to review speed of service, sales, and transaction size. Remedy outliers with ease.
